Snugtop Tonneau Cover

\$3250 painted and fitted

SNUGTOP SnugLids are perfection in form, function, fit and style. With its classic low profile and contoured design conforming to the sleek lines of your truck, the popular SnugLid line of aerodynamic tonneau covers improve your trucks efficiency. The Original SnugLid sports a classic, low-profile design, high-strength construction and double-lock security.

- » Double Lock Security
- » No-Tool Four Point Quick Release System
- » Snugrip No-Drill Mounting System
- » High Strength Construction
- » Advanced Cargo Protection
- » Heavy-duty Gas Props For Easy Lift Operation
- » Stainless Steel Hinge System

BAKFlip Tonneau Cover

\$2200 fitted

The BAKFlip® Tonneau Cover has revolutionised the way we use our trucks by giving truck owners the newest generation of hard, folding multi-panel tonneau covers. Flip it back for total bed access and rear window protection or fold it down and lock it in place for a solid defence against thieves.

Tonneaus are constantly exposed to harsh weather, so the BAKFlip® is built to withstand Mother Nature's wrath. Each panel is crafted from 1/2" thick EPS core bonded on both sides to a tough aluminium exterior. The structure is 100% weather-resistant and strong enough to support 180kgs of distributed weight.

- » Premium Universal Tailgate Operation:
 - o An all-new upgraded and integrated rear seal that allows the tailgate to close with the cover up or down
- » Advanced Impact Resistant Construction
- » Premium Density Foam Core
- » Heavy-Duty Hardware and Components
- » Upgraded Latch Housing for Long-Term Durability
- » Weight Rated up to 180kgs of Evenly Distributed Weight

Pace Edwards Electric Tonneau Cover

\$3925 fitted

Open and close the electric retractable cover in less than 30 seconds with just the touch of a button. The cover can be stopped at any point along the rails to give you just the amount of coverage your cargo requires.

- » Hands-free, remote operation.
- » Retracts into canister at the front of the truck bed.
- » Durable black powder-coat finish on rigid aluminium panels.
- » Patented silicon weather hinge provides a tight seal between the aluminium panels.
- » Optional manual switches can be mounted in the cab or back by the tailgate.
- » Electro-magnetic brake locks cover in any position.
- » Electric motor wires to your truck battery.
- » Drive System release lever provides cover operation in case of lost power.
- » No-drill, clamp-in design (on most applications) for installation in about an hour.
- » Low-profile, aerodynamic design saves gas.

Retractable Tonneau Cover

\$3250 fitted

The roll up tonneau cover uses a simple, but smart space-saving, spring-loaded canister, including an integrated strap to make opening simple.

This hard, retractable truck bed cover goes on easy with no permanent modifications required and includes drain-tubes to further storm proof your cargo area. Not only can you drive in the fully opened or closed positions, you can also set two additional customized locking points.

LEER Canopy

\$5995 painted and fitted

LEER Canopies are constructed of strong, resilient fiberglass or tough non-corrosive aluminium.

Spray in Bed Liner

\$1250

Spray in bed liners will provide your vehicle with the highest level of impact, abrasion and corrosion resistance.

Plastic Drop-In Bed Liner

\$895

Keep your Ford F150 bed looking brand new with a drop-in bed liner moulded from hard plastic, covering the whole truck bed, providing complete protection.

Cat Back Exhaust System

F150

\$2100 fitted

A cat back exhaust system is a relatively simple power modification that will free up your exhaust gas flow and produce an engine note that is more pronounced than your stock muffler. The term cat back exhaust can be defined as

2" Front Levelling Kit

F150

\$685 fitted

Levelling kits are designed to level the front of your truck with the rear. This allows for slightly larger tires and eliminates the "nose-down" look common in most trucks.

Roush Supercharger Kit

F150

\$15,500 fitted and tuned

This Roush supercharger kit is part of the TVS (Twin Vortices Series) line of superchargers developed by engineers at Roush, and it raises the bar on both reliability and performance. Eaton's rotating assembly (driven by TVS technology) provides better fuel economy and even more power all while fitting into a smaller-than-average package. Unlike turbocharging, this Roush supercharger provides instant throttle response and can generate increased power through the 5.0L Coyote engine's entire power band.

- » R2300 Supercharger with new TVS technology and four-lobe rotors to increase efficiency
- » All-new, high-capacity, low-restriction air filter and complete induction system
- » Large 60mm dual-bore throttle body
- » Higher boost 75mm supercharger pulley
- » Custom designed, heavy-duty first sheave FEAD system
- » Roush-designed high-flow fuel rail and high flow injectors
- » Large aluminium intercooler
- » Upgraded low-temperature radiator with moulded air duct
- » High-capacity degas bottle
- » Roush Phase 2 calibration file delivered with exclusive Roush
- » Diagnostic Tool (RDT)
- » 650 hp @ 6500 rpm and 585 lb-ft @ 4000rpm
- » +265 hp (+69%) and +198 lb-ft (51%) increase over stock (385 hp/387 lb-ft)
- » Most highly-engineered supercharger currently available on the market

nGauge DPF EGR Delete Tuning for 2017-18 6.7 Powerstroke with 5" Aluminized exhaust

F250

\$3750 fitted

The nGauge comes with DPF Delete Competition tuning. There will be 7 included engine power levels and 4 transmission firmness settings. This kit also contains a full down pipe back aluminized exhaust system.

Gauge Functions:

- » User configurable digital gauge
- » Display up to 6 gauges at a time
- » Pick from hundreds of OBD2 signals
- » Record log files to MicroSD Card
- » Program warning lights
- » Built in diagnostics

5" Down pipe back stainless-steel exhaust:

- » Mandrel Bent for Increased Air Flow
- » Increased Horsepower
- » Increased Torque
- » Easy & Quick Bolt on Design
- » Utilizes Factory Hangers

**Voids warranty*

Aftermarket Front Sensors

XLT Models only

\$590 fitted

Damage to your car or other property can be expensive but can be easily avoided by the fitment of front parking sensors. These unobtrusive sensors give audible warnings when your vehicle is getting close to a wall or an object, or person.

Cold Air Intake Roush

F150 V8

\$790 fitted

Cold Air Intake Roush provides more efficient air intake than the stock airbox. Providing much less intake restriction than stock in forced induction applications, this cold air intake kit increases engine performance with no PCM re-calibration required.

Fold Away Utility Box

Only compatible with BakFlip
Tonneau Covers

\$750 fitted

Rugged extruded aluminium ramps are designed to conquer tough loads. These stowable loading ramps secure directly into the tailgate plate for ease of use. Conveniently store into the side bed cleats when not in use.

Swing Case Truck Tool Box

\$890 each, fitted

Designed specifically for pickup beds, each Swing Case holds up to 35kgs of tools and gear without eating-up precious cargo space.

Just pull the latch and the Swing Case pivots nearly 180° over your lowered tailgate giving you instant access. Then, the case swings back and locks securely in place. Plus, the locking lid keeps your gear secure, and the moisture seal keeps weather at bay. The Case easily lifts out of your truck bed to become a portable chest you can carry anywhere.

Decked In-Vehicle Storage System

\$4890 fitted

Decked in-vehicle storage systems make it possible for you to work smarter and play harder. These innovative units feature two full bed-length drawers, each with a 100kg load rating and cast aluminium handles, that roll out to provide ergonomic access to tools, equipment, and gear, while also providing full use of your truck bed or cargo van. The deck sits just above the wheel wells and offers a true 1,000kg payload rating. The Decked systems are crafted from high-density polyethylene (HDPE) co-moulded to galvanized steel subframes, making them super-rugged and strong. Decked products are designed to live outside in the elements; the exterior will be unaffected by extreme shifts in temperatures, moisture levels, or intense UV exposure.

Bed Extender

\$895

This heavy-duty bed extender features a classic U-shape for maximum cargo capacity and provide you with an additional 2 ft. of secure cargo area. Simply flip it out onto the tailgate and, when not needed, they flip just as easily back inside the bed to create a smaller cargo contained area for tools, gas cans, or even groceries. The bed extender is made from lightweight rounded-rectangle, 6063 T6 aluminium alloy tubes, making them easy to use. The tubes are powder coated for durable, long-lasting appeal and, when combined with rugged, class-reinforced nylon composite uprights, they create a strong, torque-resistant cargo cage you'll be able to use for years to come.

Bed Divider

\$780

The bed divider drops right into your truck bed in a clean, hassle-free installation that will greatly improve your truck's ability to haul around and organise all your cargo and gear. The Bed Divider is spring loaded and folds against the sides of the bed when not in use but stands extremely strong when deployed so that you can use it for just about any application that you have in mind. Made from reinforced plastic and nylon composite allows it to hold up extremely well and take a beating from whatever you're hauling around. The Divider is extremely easy to install and drops right into Ford's BoxLink expandable bed system without modifications.

Bed Ramp Kit

\$1400 fitted

Rugged extruded aluminium ramps are designed to conquer tough loads. These stowable loading ramps secure directly into the tailgate plate for ease of use. Conveniently store into the side bed cleats when not in use.

Deployable Side Steps

\$3450 fitted

Powered side steps that automatically fold up and down, folding tight against your truck's body when doors are closed.

Raptor Style Front Grille

2018/2019 F150

\$1100 fitted

The grille allows air flow into your vehicle to cool down your radiator and engine, and the design of the grill also tries to keep debris from going into the engine bay of your vehicle.

Floor Mat All-Weather with F150 Logo Pair Regular Cab

F150

\$220

These Ford floor mats for your regular cab F150 are created from specifically designed, all-weather, thermoplastic rubber. These mats will provide a significant amount of protection for your carpet.

Side Mount TrekStep

\$645 fitted

The Side Mount TrekStep provides a step up into the bed of your truck.

- » Constructed from premium high-strength die-cast aluminium alloy
- » Provides 6"-8" of downward extension from the side of the truck bed
- » Universal fit means it can be installed onto either the driver or the passenger side
- » Able to support up to 140kg's of weight

Chrome Nudge Bar

Nudge Bars are designed to give your truck a tough, new look, while protecting your grille from damage. Made from sturdy steel tubing, these fully functional bars include a rugged chrome plated stainless steel skid plate as well as two light tabs for mounting auxiliary lights.

F150

\$895 fitted

F250

\$1650 fitted

Chrome Bull Bar

F250

\$3950 fitted

This Bull Bar is manufactured from high tensile, structural grade alloys, and engineered to accommodate up to 16,500lb winches and is attached to the chassis using a steel mounting system. The high tensile, tapered, one-piece bumper incorporates indicator/park light combinations, air directional cooling vents and trimmed access points for winch controls.

Fog lights, fully gusseted 63mm shoulder pipes, a 6mm thick gusseted lower protection skirt and channel, spotlight mounting provisions and an aerial bracket complete a product that is unmatched in style, strength and durability.

**Winch not included.*

Front and Rear Mud Guards

F150

\$395 fitted

These mud guards are remarkably resilient, look amazing and install simply, meaning you get substantial protection from whatever the road throws at your truck.

- » Durable Thermoplastic Construction
- » Custom Fit for Your Fenders
- » Full Tyre Coverage
- » Black Textured Finish
- » Contour Design

Tinted or Chrome Bonnet Protector

\$650 fitted

This Ford hood deflector is made from durable, smoked coloured acrylic material which is designed to withstand the elements and protect the front edge of your hood from costly paint chips. The smoked colour of the hood looks great with all colours.

Weather Shields

\$495 fitted

Allow fresh air to circulate in your truck's interior while keeping the rain and wind outside. These weather shields are also designed to help keep your interior cool when you park in the sun. They're strong and flexible and car wash safe.

Fender Flares

\$1800 fitted and painted

Achieve a unique muscular side appearance and wheel protection. These Fender Flares provide additional tyre coverage and protection from road debris and hazards. They also come with a simulated riveted signature appearance that is distinctive and unique making your truck stand out from the crowd.

Window Tint

\$245

Cutting edge automotive window tints from the most reputable manufacturers to ensure your car window tinting lasts in the harsh Australian heat.

Leather Interior

XLT Models only

\$2900

Factory look or custom designed leather upholstery, made from premium quality leather.

Leather and Paint Protection

\$995

Leather Protection

Protect the interior of your vehicle so it stays cleaner for longer and is protected from UV damage, liquid spills and damaging chemicals. Leather protection provides a transparent and colourless coating which does not impact the leathers look or feel and keeps the leather feeling soft, it features a super hydrophobic effect, so water and chemicals simply roll off instead of soaking into the leather.

- » Excellent Durability
- » Easy to Clean
- » Super Hydrophobic Effect
- » Superior Wear Resistance
- » UV Resistance
- » Keeps Leather Soft
- » Preserves Factory Look & Feel

Paint Protection

Compared to factory paint work, paint protection utilises the latest ceramic nanotechnology to give your paint work superior Chemical Resistance, UV & Thermal Resistance, Anti-Graffiti and Super Hydrophobic effect.

The ceramic layer will provide the best protection from damaging environmental contaminants and harsh chemicals that would otherwise compromise the factory clear coat, such as bird / bat droppings, bug splatter, tar and tree sap.

- » Permanent Protection
- » Scratch Resistance (Above 9H)
- » Super Hydrophobic Effect
- » Weather & UV Resistance
- » Thermal Resistance (up to 1200°C)
- » Anti-Graffiti
- » Advanced Chemical Resistance
- » Oxidation & Corrosion Resistant
- » High Gloss Finish

12.1" Tesla-Style Android Navigation Radio

F150

1 G Ram 32 G Rom - \$1995 Installed

2 G Ram 64 G Rom - \$2220 Installed

Get this stunning Tesla-style radio for your car and enjoy the luxury every day.

- » Plug and Play. No wiring needed unless otherwise noted. (Auto AC will need circuit board from your factory head unit)
- » Retain factory steering wheel control, backup camera, etc. Gain touch control of auto A/C.
- » Installation of Android apps in Play Store and from "Unknown sources". GPS navigation with Android app of your choice.
- » Capacitive multi-touch vertical display. Running smoothly. WiFi Internet connection. Bluetooth music and calling. MirrorLink with smartphones. Optional TV, DVR modules, etc.

227L Extended Range Fuel Tank

F250

\$3950 fitted

- » 227L hot-dipped aluminium alloy steel tank nearly doubles OEM fuel capacity
- » Largest extended tank available
- » Won't warp over time like plastic
