Medical and Forensic Cleaning Services

We can help you limit your risk, minimise sick days and create a healthy and hygienic workplace environment. All to help improve efficiency of your workplace

We can do this by working with your existing cleaners and adding any of the following specialised services including upskilling consultancy and keeping them accountable with Random ATP testing.

- ✓ Sanitising treatments
- ✓ Microbial shields
(protecting sanitizing surface coating)
- ✓ Ultra low volume (ULV) fogging
(specific situations and products only)
- ✓ Soft furnishing cleaning and sanitizing
- ✓ Soft furnishing protectors that provide bacteriostatic effects to limit the growth of bacteria
- ✓ Product Audit, advice and supply of equipment and chemicals
- ✓ Cleaning consultancy / plans
- ✓ ATP Testing for the presence of contamination on surfaces and in water, including food residue, allergens and bacteria
- ✓ Independent hygienist reports
- ✓ Sampling and air quality testing
- ✓ Air filtration
- ✓ Mould cleaning
- ✓ Mould reports

Or we can provide a holistic approach in partnership with our Pressure and steam approved affiliates.
